SELF-DECLARATION OF CONFORMANCE TO THE REQUIREMENTS OF ISO 9001:2008

We hereby declare, that our business management system as documented and fully implemented complies with the ISO (International Standards Organization) 9001:2008 "Quality management systems - requirements" that are applicable to our current business operations.

Our current business operations cover the following:-

- The process design and development of moulded & assembled plastic products;
- The moulding and finishing / assembly of plastic products.

This self-declaration of conformance to the requirements of ISO 9001:2008 is supported by the fact that we were accredited by Bureau Veritas from November 2001 until March 2008 via their listing certificate numbers 101312 & 172616 (UKAS), and we have only discontinued our formal accreditation due to the high costs involved.

This self-declaration of conformance to the requirements of ISO 9001:2008 is also supported by our consultants "*Reeves & Associates*" who have provided assistance to over seventy six companies who have been officially registered / listed by fully internationally accredited ISO independent assessment authorities since August 1988.

Should any potential new Customer (or exiting Customer) wish to verify for themselves that our business management system does comply with the requirements of ISO 9001:2008, then they (or their appointed third party representatives) will be welcome to audit / assess our operations at our address at any time, provided that the necessary arrangements are made through our Management Representative.

It is the policy of Sizanani Plastics to continually improve our product and service delivery performance which will be measured through our annual Customer satisfaction surveys.

This self-declaration of conformance and commitment to the continual improvement of our ISO 9001:2008 system, is hereby signed for in our full executive capacity as Directors of the company.

Piet Matjabela • Brett Parker • Glen Parker • Steven Parker

This self-declaration is valid for 1 year to:- 1st March 2016
(Provided that R&A are still involved in supplying services, otherwise this cert will be invalidated)

TRU-FIX

SELF-DECLARATION OF CONFORMANCE TO THE REQUIREMENTS OF ISO 14001

We hereby declare, that our business management system as documented and fully implemented complies with the ISO (International Standards Organization) 14001 "Environmental management systems - Requirements with guidance for use", that are applicable to our current business operations.

Our current business operations cover the following:-

- The process design and development of moulded & assembled plastic products;
- The moulding and finishing / assembly of plastic products.

Our Environmental Policy:-

Sizanani Plastics being a concerned member of the community, is also dedicated to the upkeep and improvement of the environment in the workplace. The framework of our system will demonstrate our commitment to the protection of the environment, prevention of pollution, protection of our natural resources and the continual search for improving processes, all in balance with the dictated legislation and bi-laws set down by the RSA Government, etc.

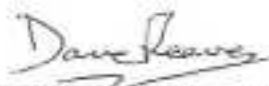

This self-declaration of conformance to the requirements of ISO 14001 is also supported by our consultants "*Reeves & Associates*" who have provided assistance to us since 2001 and also have other Clients who have been formally accredited for ISO 14001:2004

Should any potential new Customer (or exiting Customer) or interested party wish to verify for themselves that our business management system does comply with the requirements of ISO 14001, then they (or their appointed third party representatives) will be welcome to audit / assess our operations at our address at any time, provided that the necessary arrangements are made through our Management Representative.

This self-declaration of conformance and commitment to the continual improvement of our ISO 14001 system, is hereby signed for in our full executive capacity as Directors of the company.

TRU-FIX

SELF-DECLARATION OF CONFORMANCE TO THE REQUIREMENTS OF OHSAS 18001

We hereby declare, that our business management system as documented and fully implemented complies with the OHSAS (Occupational Health & Safety Assessment Series) 18001:2007 "Occupational health and safety management systems - requirements", that are applicable to our current business operations.

Our current business operations cover the following:-

- The process design and development of moulded & assembled plastic products;
- The moulding and finishing / assembly of plastic products.

Our Health and Safety Policy:-

Sizanani Plastics is committed to providing a healthy, safe and secure operating environment for all our employees, any temporary workers, contractors and visitors. We will ensure that hazard identification, risk assessment and risk control is carried out by a management team approach. Our system will also strictly comply with all the known legal requirements.

This self-declaration of conformance to the requirements of OHSAS 18001 is also supported by our consultants "*Reeves & Associates*" who have provided assistance to us since 2001 and also have other Clients who have been formally accredited for OHSAS 18001:2007.

Should any potential new Customer (or exiting Customer) or Interested Party wish to verify for themselves that our business management system does comply with the requirements of OHSAS 18001, then they (or their appointed third party representatives) will be welcome to audit / assess our operations at the our address at any time, provided that the necessary arrangements are made through our Management Representative.

This self-declaration of conformance and commitment to the continual improvement of our OHSAS 18001 system, is hereby signed for in our full executive capacity as Directors of the company.
